

## 1999 Toyota Avalon Air Filter Replacement

Bird nest was made in an air filter box when opening.

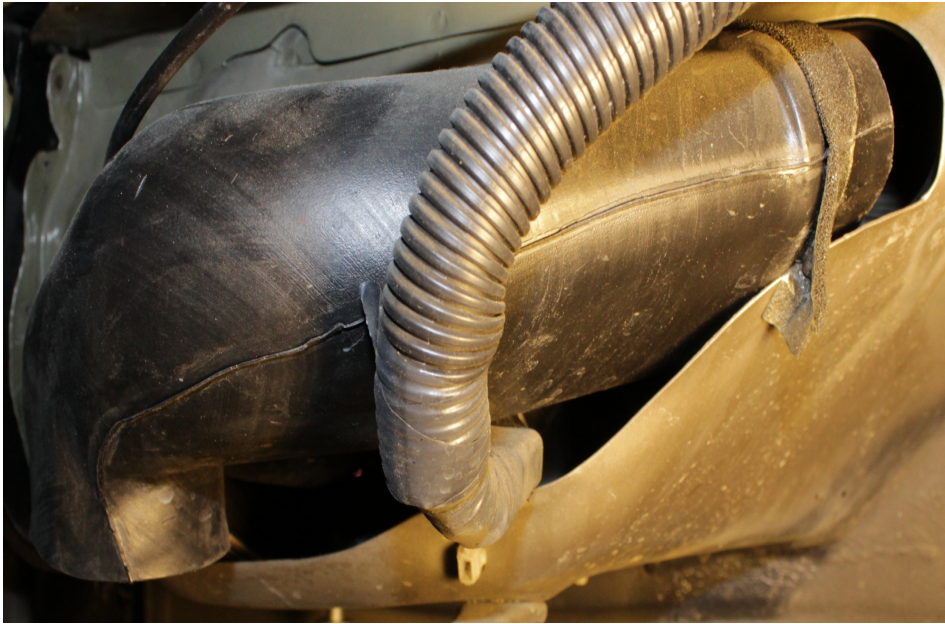

I found that the plastic air duct connected to the air filter box is divided into two portions and the large air intake is just opened with no mesh screen. What a low-tech!

Opening air filter box

Wow! Bird nest in there!

Upper Air Duct into air filter box from bottom

Lower Air Duct

Air Duct Assembled (No mesh screen at opening)

Old (Left) & New Air Filter (Right)
